| <p>Product Description</p> | <p>SOVOS Platinum VITAL Bleed Control Trauma Kit</p> <p>When controlling severe haemorrhages, having a kit equipped with the right medical supplies is essential. User-friendly Bleed Control Trauma Kits are vital to the effectiveness of first responders in critical situations.</p> <p>The SOVOS Platinum VITAL Bleed Control Trauma Kit is designed to handle life-threatening haemorrhages, lacerations, and minor injuries providing high-quality medical supplies to meet urgent needs. Packed in a compact, lightweight bag, the kit is designed to be worn on a harness for immediate and rapid access. The kit is supplied with a load rated tether and connector.</p> <p>Packed in a compact, lightweight bag, the kit is designed for rapid access. Featuring easy-open drawstrings and full-length zips, it allows the contents to be fully exposed within seconds. Internal compartments and elastic loops securely hold critical first aid materials, ensuring quick and efficient retrieval. Equipped with a durable carry handle and MOLLE-compatible PAL strapping on the back panel, the pack can be easily attached to other gear, vests, or belts, ensuring it is always within reach when needed.</p> <p>Supplied with Anti-slip leg straps ensure the bag can be positioned accurately and securely, while quick release, durable buckles allow for fast deployment when needed.</p> <p>The SOVOS Platinum VITAL kit is compact enough to be worn on a harness.</p> <p>The term "Platinum 10" highlights the critical first 10 minutes after a traumatic injury or medical emergency. This window of time is vital for swift and efficient action by first responders, emergency personnel and potentially the casualty themselves to improve survival rates and minimise long-term harm through controlling major bleeds and stabilising injuries.</p> <p>The SOVOS Platinum kits enable trained first aiders, advanced medical professionals and first responders to deliver lifesaving care during emergencies while awaiting the arrival of the emergency service team.</p> |

| | |
|-----------------------|---|
| Product Weight | <ul style="list-style-type: none"> 673g 805g (With leg straps fitted) |
| Size | <ul style="list-style-type: none"> 7cm × 15cm × 17cm (approx.) |

| | |
|-----------------|--|
| Storage | <ul style="list-style-type: none"> Keep stored and transported at ambient temperature (0°C to + 30°C) Do not store in direct/high heat or sunlight as this may affect the internal components of the kit |
| Lifetime | <ul style="list-style-type: none"> Not all products have an expiry date, however most sterile items do. If a non-sterile product has no expiry date and still sealed in its original packaging, it's a question of judgement as to whether it is still suitable for use. Items that have exceeded their expiry date should be disposed and replaced as they may not be effective and can start to deteriorate, making them unreliable. |
| Cleaning | <ul style="list-style-type: none"> Clean the storage bag using warm soapy water and soft cloth |
| Disposal | <ul style="list-style-type: none"> Recycling is preferred where possible. Look out for the recycling symbol for material categories |

| | |
|-------------------------------|---|
